‘The Australian plays his music with great warmth and a fine feeling for catchy grooves between Americana, rock and songwritersoul... a very accomplished guitarist’. –
ROLLING STONE

The Australian Jaimi Faulkner plays his music with great warmth and a fine feeling for catchy grooves between americana, rock and songwritersoul. His songs have a high recognition value with sophisticated melodies and well-adjusted arrangements. Without a doubt, the talented singer and songwriter is also an accomplished guitarist who is equally at home with electric and acoustic guitars. Beautiful ballads on the one hand - powerful, grooving songs on the other hand which fill the spectrum that this gripping singer-songwriter has to offer.

As an impressive live performer, Faulkner has been able to entertain audiences not only as a headliner in his own right, but also along side musical heavy weights like Paul Young, Chris Isaac, Crosby, Stills & Nash, Vonda Shepard, Tom Odell, Tony Joe White, Coby Grant and Holmes Brothers.

The single “Early Morning Coffee Cups”, released in 2017, has reached over 22 million streams on Spotify. An impressive indication of the growing popularity Jaimi Faulkner enjoys.

February 2022 saw the release of his new and meanwhile seventh album. The new CD with the unusual title ALLEN KEYS & BROKEN BITS encapsulates Faulkner’s musical journey so far: excellent guitar playing, profound lyrics, to the point songwriting and a lot of passion in the voice. An evening with Jaimi Faulkner promises a top-class programme, performed with great skill and passion, peppered with humor and stories.
